Git

HONORS & AWARDS

Scholarship in 2nd semester 2016-2017

EDUCATION

Sep 2014 - Jan 2019
Posts & Telecommunications Institute of Technology
Major: Software Technology
GPA: 2.87/4

WORK EXPERIENCE

Nov 2018 - Feb 2020
Nashtech Vietnam - PXP ANYPAY Project
Automation Test Engineer
I'm experienced in automation testing for websites and API for Financial project. The project have used Selenium, BDD, SpecFlow and SQL Server. For manual testing, I brainstorm approaches, design test strategies and then create the test cases. In addition, I have a good ability to communicate in order to present the testing evidence to international clients (UK).

Feb 2020 - Present
Nashtech Vietnam - PXP Payments Service Project
Senior Automation Test Engineer
I have six months experience in the senior position. My current project is using language and automation tools which are similar the above project. However, I have worked on the larger BDD framework and communicated with clients using English daily.

2016-2017
